

# Purchase Algos

## On Coinbase

### Services Used

**Coinbase:** Free

**Coinbase Pro:** Free

---

### Simplicity Instructions

1. Create a [Coinbase account](#). *Referral Link*
2. Once approved and verified, before purchasing, set up 2FA. I recommend using an authenticator app.
3. *Mobile:* Click the center [blue button](#) with two arrows.  
*Desktop:* Select the [Buy/Sell](#) button in the top right corner.
4. Select [Algorand](#) as your asset, enter the dollar amount you'd like to purchase, and your payment method.
5. You now own [Algos](#)! You can easily send and receive Algos fast with low fees!

---

### Reduced Fee Instructions

1. Create a [Coinbase account](#). *Referral Link*
2. Once approved and verified, before purchasing, set up 2FA. I recommend using an authenticator app.
3. *Mobile:* Recommend using a desktop for this method.  
*Desktop:* Select [Buy/Sell](#) button in the top right corner.
4. Select [USDC](#) as your asset, enter the dollar amount you'd like to purchase, and your payment method.  
[USDC](#) is a stable coin meaning you can always redeem 1 USD Coin for US \$1.00, giving it a stable price.
5. Move the USDC to [Pro.Coinbase.com](#)
6. Select Portfolio and then [Deposit](#).
7. Deposit your [USDC](#) from your coinbase.com account.
8. Convert USDC to [USD](#).
9. Click [Trade](#) and purchase Algos!
